

# Stevens Pre-College

## A Virtual Summer Experience That Lasts a Lifetime

At Stevens Institute of Technology, our mission to help students realize their full potential starts before it's time for them to apply to college. Through Stevens Pre-College, high school students learn about educational and career possibilities in STEAM. They participate in interactive sessions, taught live by Stevens faculty, and college-prep workshops, where they learn about the college admissions process and student life. From social activities to research projects, students will discover their passions and the extraordinary opportunities that await them.

### PROGRAM ELIGIBILITY

The Summer Pre-College Programs are for female and male students who are rising sophomores, juniors and seniors in high school (entering 10<sup>th</sup>, 11<sup>th</sup> or 12<sup>th</sup> grade in Fall 2021) - with an interest in learning about the STEAM or Business Fields.

### SUMMER PROGRAM OFFERINGS, TAUGHT BY STEVENS FACULTY

- [Business Explorer](#)
- [Cybersecurity - Beginner](#)
- [Cybersecurity - Advanced](#)
